

## Feeler Gauge - 32 Blades

Single-ended metric and imperial sized feeler gauges for measuring and setting the thickness of tappet clearances, piston ring gaps, spark plugs gaps and bearing clearances. Also includes a brass gauge for use on the reluctor air gap on electronic ignition systems where non-ferrous, non-magnetic, blades are required.

### Additional Information

- Metric sizes: 0.038, 0.051, 0.063, 0.076, 0.102, 0.127, 0.152, 0.178, 0.203, 0.229, 0.254, 0.279, 0.305, 0.330, 0.356, 0.381, 0.406, 0.432, 0.457, 0.483, 0.508, 0.533, 0.559, 0.584, 0.610, 0.635, 0.660, 0.711, 0.762, 0.813 and 0.889mm.
- Imperial Sizes: 0.0015", 0.002", 0.0025", 0.003", 0.004", 0.005", 0.006", 0.007", 0.008", 0.009", 0.010", 0.011", 0.012", 0.013", 0.014", 0.015", 0.016", 0.017", 0.018", 0.019", 0.020", 0.021", 0.022", 0.023", 0.024", 0.025", 0.026", 0.028", 0.030", 0.032" and 0.035".
- Brass size: 0.010" (.254mm).
- Blade dimensions: 84 x 13mm.
- Supplied on fold away sleeve. Offset Feeler Gauge available, please see Laser Part No. 2482.
