

Car Ramps - Low Rise

These low rise car ramps are intended for use on lowered, sports, and race cars to allow for access for a trolley jack. The honeycomb surface provides grip and prevents a build up of moisture under the tyres, this also makes them lightweight, easy to store. They are also ideal for using to help get a car up and over a high curb.

Additional Information

- Manufactured from Polypropylene (PP).
- Size: 700(l) x 200(w) x 70mm(h), with 80mm end stop.
- Capacity 5000kg per pair.
- Ideal for low sports cars to get access for trolley jacks, light and easy to store.
- When two pairs are used they are ideal for classic car storage lifting the car and preventing the build up of moisture under the tyres.
