

Kettenrohrzange für Ölfilter – schwere Lkw

Strong, double width chain wrench with handle designed for heavy duty applications, including HGV use. The double-link chain construction provides plenty of strength and grip, even on oily surfaces and long length will fit a wide range of canister-type filters from 60 – 160mm diameter. The handle is 350mm long, perfect for extra leverage when removing stubborn filters and the cranked swivel design is useful when access is restricted. All-in-one wrench and handle design, unlike traditional chain wrenches there is no need for a separate ratchet or power bar, a really useful tool for the HGV workshop.

Additional Information

- Gekröpfter Gelenkgriff für beengte Bereiche
- Größenbereich: 60-160 mm
- Kettenlänge 520 mm
- Doppeltbreite Kette für erhöhte Festigkeit
- 350 mm langer Griff
