

Multi Head Ratchet Ring Spanner Set

An innovative 7 piece multi headed ratchet ring spanner set that combines an off-set lockable ratchet handle with flexible headed ratchet rings to allow the user to access difficult to reach nuts and bolts at different angles. Also includes a double ended "ring link" to allow 2 ratchet ring heads to be combined in to one double ended ratchet ring spanner.

Additional Information

- Flexible 360° off-set ratchet handle with 5 interchangeable flexible ratchet heads: 13, 14, 15, 17, 19mm.
- The ratchet heads are 72 teeth, bi-directional & allow up to 180° angle of approach allowing for greater access in hard to reach areas.
- The ratchet handle can be locked in any position. This, combined with the movement of ratchet heads gives flexibility in both side-to-side and up/down directions.
- Also features a linkage component which permits 2 ratchet heads to be joined together allowing them to work in confined spaces with maximum leverage.
- Manufactured from Chrome Vanadium.
