

Rear Trailing Arm Bush Tool - for Ford Focus

Designed to be used on vehicle, the 7960 rear trailing arm bush tool allows the user to remove and fit the front bush on the rear arm of the Ford Focus from 2012.

Additional Information

- On-vehicle bush extraction and insertion.
- Applications include: Ford C-Max, Focus and Kuga II (from 2012); fits OE bush number 1 692 849. Volvo V40 (from 2015) OE bush 31360092.
- Includes bush fitting and extraction cups for both bush sizes from 2012.
- Extraction and insertion cups can be used on a workshop press where required.
- Made in Sheffield. Uses a threaded force screw - keep the thread clean and well lubricated with molybdenum disulphide grease before use.
