LASER®

Brake Pipe Bender/Straightener Tool

A specialist automotive pipe bender designed for brake pipework, featuring a triple roller design and T-Bar handle for controlled pipe forming without the risk of crushing. The compact, low profile design makes it ideal for on-vehicle use. A simple tool for quick bending of small diameter pipes up to 6.35mm across a range of materials, including copper and cupro-nickel.

Additional Information

- Brake pipe bender for use on pipes up to 6.35mm in diameter.
- · Features a T-bar handle and triple roller design for accurate, controlled pipe forming.
- · Compact design, allowing it to be used on the vehicle.
- · Suitable for use on copper & cupro-nickel brake pipes.
- · Pressed steel body for strength.
