LASER®

Key Fob Tester - Infrared & Radio Frequency

The Laser 8653 key fob and remote control tester has been designed to allow the user to test the signal output from automotive key fobs and infra-red controllers. The tester incorporates an LCD screen so the wake-up signal can be seen in hertz.

Additional Information

- Applications include: Automotive key fobs, garage door remote controls, TV & Air Conditioner remotes etc.
- Frequency range: 10 1000 Mhz (confirmed by LCD screen).
- IR signal detector.
- Powered by a 9v (PP3) battery (not included).
- Part No. 8653 is a sensitive electronic sensor, for reliable results use away from other sources of interference like mobile phones, computer & routers etc.
