

Hybrid /EV Warning Sign 2pc Set

A set of two Hybrid/EV warning signs, designed to inform employees and customers of the risks concerned with high voltage vehicles. Made from hard-wearing Polypropylene plastic, these 3-sided signs are weather and scratch resistant, and feature a drain hole in the bottom. One of them can be secured via it's integral suction cup, and the other by it's integral magnet, and both are suitable for use inside and outside the workshop.
