

Skipper XS c/w Post & Base

The Skipper XS range of products were developed to adapt Skipper's great versatility to indoor environments such as in warehousing, manufacturing and workshops. The unique XS range allows for connection to any indoor surface, from high gloss and glass, to worktops, shelving, door frames and pillars, making anything possible. This kit comprises of; two Skipper XS head units which each feature a 9 metres (30ft) of high-specification fabric tape that's made Skipper the market leader in retractable barriers. A dummy head unit, with no barrier tape, to use as the end point of a straight barrier set-up. A Skipper heavy duty support post and base, which can simply be filled with water or sand for improved strength and stability, then the post is twist-locked into position. Together with two wall mounted receiver clips, that act as an end-point for Skipper retractable barriers & can also be used to support the Skipper waste & safety management accessories.
