

Flexible Wrench Set 1/4"D 2pc

A 2pc flexible wrench set suitable for driving 1/4"D sockets and 1/4" shank hex screwdriver bits. The compact size fits comfortably in the hand giving adequate leverage and the bit driver has the added advantage of a locking function plus magnet to help hold fixings in place.

Additional Information

- 1x flexible locking bit wrench with magnet, suitable for 1/4" shank screwdriver bits.
- 1x 1/4"D flexible wrench for sockets.
- Length: 130mm.
- Both wrenches equipped with knuckle bar type ends allowing variable angle access in tight spaces.
- Manufactured from chrome vanadium. Presented in a EVA foam organiser tray (37 x 80 x 140mm).
